EXPERIENCE

Associate Software Engineer
Putnam Investments - (Remote) Boston, MA   Jan 2022 - Dec 2023

- Modernized Putnam's current employee platform from EXTJS to AngularTs, including rewriting old tools and creating new ones
- Led user meetings to present proposed solutions and gather user feedback on mockups and wireframes
- Built out applications in Putnam's digital platform, a proprietary tool
- Created UIs in AngularTS then built through Jenkins CI/CD pipelines

Technology Associate
Putnam Investments - (Remote) Boston, MA   Jul 2020 - Jan 2022

- Led daily stand-ups to review completed work and roadblocks
- Created mockups and wireframes in Sketch
- Met with users to gather requirements and set deliverables
- Organized Jira board and created all tickets for team

Design Technician
Weissman Foundry - Wellesley, MA   Mar 2019 - Mar 2020

- Led orientation tours/equipment training and supervised adherence to safety protocols
- Served as a cross-departmental and BOW (Babson, Olin, Wellesley) college ambassador and liaison
- Followed product design process from ideation through beta prototyping with use of digital fabrication tools
- Textiles Specialist:
  - * Organized community workshops every semester
  - * Created projects that showcase usage of textile tools, such as vinyl cutter, Photoshop, illustrator, etc.

Design Assistant
Wellesley College - Wellesley, MA   Jun 2019 - Aug 2019

- Designed templates for social media marketing and branding
- Developed and documented new workflow for future design interns and institutional memory
- Organized alumnae merchandise project:
  - * Designed and created mock-ups
  - * User-tested mock-ups with alumni
